Understanding our Fees

We deliberately maintain smaller management portfolios so our Property Managers can dedicate more time and attention to your property, while our experienced Operations Team ensures complete legislative compliance and risk management protocols.

Combined with our proactive approach to maintenance and market intelligence that helps maintain consistently low vacancy rates, we provide comprehensive stewardship that protects and enhances your asset’s value for the long term, delivering superior returns and peace of mind beyond the fee structure.

Marketing

Premier Advertisement	\$270 + GST
Professional Photography	\$130 + GST (8 images)

First impressions are crucial, especially when potential tenants start their search online where high-quality images catch their eye first.

Professional photos can boost listing views by up to 60% and showcase the property accurately by highlighting its best features with the right lighting and angles, making spaces look more spacious and inviting. Properties with professional photography often rent up to 30% faster than those with amateur photos, reducing vacancy time.

Quality images also justify your rental price by demonstrating the property’s value and help your listing stand out in competitive markets. Premier advertisements on realestate.com.au enhance visibility, placing your property at the top of search results.
